cation for Anderson county, in talking yesterday with a reporter of the Daily Intelligencer concerning the condition of Anderson county schools, said that they were, for the most part in good condition. All of the schools are now in operation so all told and in most instances they seem to be accomplishing a good deal. SPORTS

A WISE SUGGESTION.

Lets's Have a Home League of Home Players.

Greenwood, Jan. 16—A local baseball fan offers the suggestion that the baseball league proposed for Spartanburg, Greenville, Anderson and Greenwood, to be known as the Trolley League, be composed exclusively of home boys. He believes that such a plan will guarantee much rivalry between the towns and will also not cost as much if foreign players are hired. Other fans here think that his idea is a good one and hope to get an expression of opinion from other towns in the proposed circuit.

Chicago, Jan. 16.—Ty Cobb was offered a five-year contract at \$15,000 a year in a telegram sent him at Augusta, Ga., today by President Gilmore, of the Federal League. Gilmore offered to pay Cobb his first year's salary in advance.

ROBBED TRAIN NEAR ATLANTA

BANDIT GOT INTO TROUBLE WITH A DEPUTY SHERIFF

ROBS PASSENGERS

Suspect Arrested. Nobody Seriously Hurt in the Fusillade On Train

ROBBED TRAIN—Atlanta, Ga., Jan. 16.—A bandit boarded Western & Atlantic passenger train No. 1, at Vinings, Ga., early tonight, robbed passengers in one of the coaches of several hundred dollars and after engaging in a pistol duel with a deputy sheriff, was on board, jumped from the train at Bolton, Ga. Authorities at Bolton, which is seven miles west of Atlanta, have taken into custody a man said to answer the description of the bandit.

Train No. 1 runs from Chattanooga, Tenn., to Atlanta. Most of those on board were residents of Chattanooga and intermediate towns. The train passed through Vinings shortly after 7 o'clock. The robber, who entered a chair car, drew a pistol and began to collect valuables from those in the car soon after the train left the station. He had robbed more than a score when C. C. Heard, an Atlanta deputy, who was returning from Rome, Ga., opened fire upon him. A half dozen shots were exchanged. Heard being slightly wounded by a bullet which passed through his chest. Whether the bandit was hurt is not known. He swung from the train as it slowed down at Bolton, and disappeared.

OUR FIRST TRUST COMPANY.

It, Like Our First Bank, Was Established in Pennsylvania. It was in Italy that the art of banking as known in our times was first introduced. The earliest bank established in modern Europe was that of Venice, which was founded in 1157. It originated in a loan which the state raised during the great war of the republic with the Greek empire, 1156-1171. The bank of Genoa was founded about 150 years after the bank of Venice. Macaulay in his "History of England" has a partial description of the operations of this bank, which existed from 1320 to 1798. Previous to the year 1694 there were only four considerable banks in Europe, but on the 27th of July of that year a charter was granted by William and Mary for establishing the Bank of England, which for opulence and extent of circulation has for many years been the greatest in the world. The first bank established in the United States is known in financial history as the Pennsylvania bank. It began operating on July 17, 1780, and since that time Pennsylvania has figured conspicuously in the banking affairs of the country. Besides being the home of the first bank in the United States, Pennsylvania has the distinction of having the first bank incorporated under the national banking act. Charter No. 1 was given to the First National bank of Philadelphia. That state is also the home of the first trust company. In 1809 the Pennsylvania company, a corporation to write insurance on lives and grant annuities, was organized in Philadelphia. In 1836 this institution was authorized to execute trusts. Not until 1853, however, was it empowered to act as executor and administrator.—W. C. Jenkins in National Magazine.

The proper lighting of show windows has been a great problem with most merchants, i. e., lighting them in a way which will display the MERCHANDISE and not his LIGHTING FIXTURES. While the lighting fixtures are absolutely necessary for the proper lighting of the display they should be designed to place the light on the goods and not in the eyes of persons looking in the windows. National X-Ray reflectors are designed exclusively for window lighting, and the merchant will have no difficulty in selecting one which will correctly and economically illuminate his windows.
